COAL SUPPLY

# Supply prioritised temporarily to power sector, says CIL

PRESS TRUST OF INDIA  
New Delhi, October 19

STATE-OWNED CIL on Tuesday said the supply of coal was prioritised temporarily to power producers to replenish their dwindling stock of the dry fuel.

The statement assumes significance in the wake of the country's power plants grappling with fuel shortages.

"In view of the low stock position at the power house end due to a spurt in economic activities during post-second wave of Covid-19, the supply of coal was prioritised temporarily to the power sector to replenish their dwindling coal stock," Coal

India (CIL) said in a statement.

To achieve the same in the quickest possible time, coal companies were advised only to go slow temporarily on conducting further e-auction of coal, barring the special forward e-auction for power.

"This was a highly transitory measure to tide off the current

high demand scenario in the power sector and normalcy will be restored soon," the filing said.

Coal Minister Pralhad Joshi on Tuesday discussed ways to improve coal stocks at thermal power plants with Railway Minister Ashwini Vaishnaw and Power Minister RK Singh.

The coal minister also reviewed the performance of Coal India arm Northern Coalfields (NCL), and directed it to ramp up production and load to at least 34 rakes of the dry fuel daily.

Last week, Joshi said the government was making full efforts to meet the coal demand of power producers and

stressed that steps are being taken to soon ramp up the dry fuel supply to two million tonnes per day.

The minister also felicitated machine operators at the Nigahi opencast coal project of NCL and said that their role is integral to scale up coal production and despatch from the block.

"Flagged off a coal dumper truck at Nigahi OCP, @NCL\_SINGRAULI. This indigenous dumper has been manufactured by BEML and furthers #MakeInIndia initiative," he said.

Coal India accounts for over 80% of the domestic coal output.

# Covid: India still lags nations in fully vaccinating population

GEETA NAIR  
Pune, October 19

THE COUNTRY CROSSED the 99-crore vaccination mark on Tuesday and will be reaching the one-billion milestone soon. Despite this milestone, fully vaccinating the country is some distance away. India is still way below the world average when it comes to the percentage of the population fully vaccinated.

According to the Johns Hopkins University & Medicine Coronavirus Resource Centre, the United Arab Emirates tops the list with 87.26% of its population vaccinated fully, followed by Portugal, Malta, Singapore, Spain and Qatar at around 80% of its population fully vaccinated. Around 18 countries have vaccinated 70% of their population and 80 countries are performing above average. Among the Asian countries, China has covered 74.97%, Malaysia is at 71.26% and Cambodia is at 75%.

There are 70 countries with vaccination coverage hovering at 36% of its population.

With only 30% of its population fully vaccinated with both doses, India is at below-average levels. Three-fourths of the population has got its first dose to date. As of Monday, the country administered 99.04 crore doses with 70.16 crore first dose and 28.87 crore second doses to date.

India started its Covid-19 vaccination programme on January 16, 2021, for health care workers and from February 1, it covered all frontline workers. Vaccination was opened to all citizens above 60 years on

March 1 and to all above 18 years from May 1, 2021.

On June 21, the new vaccination drive was launched with the central government supplying vaccines free of cost. From 11.97 crore vaccines administered in June, the government doubled it to 23.6 crore doses in September, with the average daily vaccination rate reaching 78.69 lakh during September.

The country's health authorities have expressed confidence in meeting their target of vaccinating all above 18 by December 2021, as the supply of vaccines is no longer a concern. The country would need 41.29 crore doses to vaccinate all those who have got their first dose and they will be due for their second dose. Another 23.83 crore doses would be needed for administering at least the first dose to the unvaccinated adults. If children are included, the country would need another 25 crore doses for its 12 crore children.

The bigger the number than 1, the faster the rate of spreading of the disease in the population. According to figures calculated by researchers of the Chennai-based Institute of Mathematical Sciences, the R-value of top 10 states with most number of active cases was below 1 till October 18.

However, some of the cities continue to show a rising number of active cases. Kolkata has an R-value over 1, perhaps "unsurprising" given the mass gatherings during the (recently-concluded) Durga Puja, said Sitabhra Sinha, who is leading the research.

# India's R-value remains below 1 since Sept, say researchers

PRESS TRUST OF INDIA  
Mumbai, October 19

INDIA'S R-VALUE, which reflects how rapidly the coronavirus pandemic is spreading, has remained below 1 since September, suggesting that the infection rate is declining, according to a study.

The Reproduction number or R refers to how many people an infected person infects on an average. In other words, it tells how 'efficiently' a virus is spreading.

An R-value smaller than 1 means the disease is spreading slowly. Conversely, if R is greater than 1, the number of infected people is increasing in each round - technically, this is what is called the epidemic phase.

The bigger the number than 1, the faster the rate of spreading of the disease in the population. According to figures calculated by researchers of the Chennai-based Institute of Mathematical Sciences, the R-value of top 10 states with most number of active cases was below 1 till October 18.

However, some of the cities continue to show a rising number of active cases. Kolkata has an R-value over 1, perhaps "unsurprising" given the mass gatherings during the (recently-concluded) Durga Puja, said Sitabhra Sinha, who is leading the research.

# States, UTs asked to focus on 2nd Covid vaccine dose coverage

PRESS TRUST OF INDIA  
New Delhi, October 19

HIGHLIGHTING THAT THE nation is close to administering a billion Covid vaccine doses, the Centre has urged states and Union Territories to focus on increasing the coverage of the second dose in light of adequate availability of shots.

The cumulative vaccine doses administered in the country so far under the nationwide Covid-19 inoculation drive has exceeded 99 crore. The countrywide Covid-19 vaccination programme was launched on January 16 by Prime Minister Narendra Modi.

The Union government has also sought from the states suggestions in formulating new guidelines for international travel. Union Health Secretary Rajesh Bhushan reviewed the progress of vaccination with Health Secretaries and mission directors of national health missions in states and UTs, through a video conference on Monday, according to a ministry statement.

Bhushan highlighted that the nation is close to administering a billion doses and congratulated the states and UTs for their effort to vaccinate all citizens. It was highlighted that a sizeable number of beneficiaries have not received their second dose of the Covid vaccine.

The states and UTs were urged to focus on the second vaccination dose, the statement said.

At the virtual conference, it was pointed out that many states have adequate doses to vaccinate those people who are awaiting their second jab. The

Government of India is in a position to provide additional vaccine doses to the states and UTs so that they can complete the task, it said.

They were also exhorted to accelerate the vaccination drive.

# Cap power prices at energy exchanges: AIPEF

PRESS TRUST OF INDIA  
New Delhi, October 19

ALL INDIA POWER Engineers Federation (AIPEF) on Tuesday demanded an immediate meeting of Forum of Regulators to cap power prices at energy exchanges, alleging black marketing by private operators during the ongoing coal shortage crisis.

"AIPEF has demanded that a meeting of the Forum of Regulators be held immediately to stop black marketing in energy exchanges mostly by private operators during the crisis. AIPEF has also demanded that Expert Committee be constituted to fix responsibility for the Coal Crisis and to evolve ways and means to avoid such crises in future," an AIPEF statement said.

AIPEF chairman Shaileendra Dubey has in a letter to Union Power Minister RK Singh urged

The letter said since coal shortage is recognised as a major factor causing a hike in power rates, the power ministry must stress for ending future coal shortages otherwise the results of 2021 would repeat. In particular, we refer to an interview by the then Coal Secretary GOI (Anil Swarup) in 2016, when he said that an action plan would be finalised over the next 5 years for meeting coal shortages.

However, this action plan was not implemented and now the Coal Secretary has retired, and it is up to the Ministry of Power to take up the issue of coal shortages with concerned ministries. AIPEF demanded that one expert committee with a CEA member be constituted immediately to enquire about the coal shortage resulting in the power crisis so that the reason for the present crisis is technically analysed and stern action is taken against those responsible.

However, this action plan was not implemented and now the Coal Secretary has retired, and it is up to the Ministry of Power to take up the issue of coal shortages with concerned ministries. AIPEF demanded that one expert committee with a CEA member be constituted immediately to enquire about the coal shortage resulting in the power crisis so that the reason for the present crisis is technically analysed and stern action is taken against those responsible.

However, this action plan was not implemented and now the Coal Secretary has retired, and it is up to the Ministry of Power to take up the issue of coal shortages with concerned ministries. AIPEF demanded that one expert committee with a CEA member be constituted immediately to enquire about the coal shortage resulting in the power crisis so that the reason for the present crisis is technically analysed and stern action is taken against those responsible.

# Coal, rlys, power ministers discuss supply situation at power plants

COAL MINISTER PRALHAD Joshi on Tuesday discussed ways to improve coal stocks at thermal power plants with railway minister Ashwini Vaishnaw and power minister RK Singh.

The meeting comes against the backdrop of power plants grappling with coal shortages. "Held virtual meeting with Ministers @AshwiniVaishnaw ji & @RajKSinghIndia ji, along with officers of @CoalMinistry, CMDs & officials of coal companies. We discussed improving coal stock at thermal power plants & resolved our commitment to fulfill energy demands of the country," Joshi said in a tweet.

**SYNISE** (Sourcing and Outsourcing) **E-AUCTION** **BOSCH** (Sponsored for the)

Scrap Material on Arising Basis From 22nd October for the **BOSCH LTD, Bidadi Plant**

**Materials Description:** HORIZONTAL HAND LEVER MILLING M/C, Plunger Pre-grinding machine, MICO/Calibration Test Bench Scrap Empty Plastic barrels, Scrap Empty M S barrels, Damaged Empty Mesh containers, Scrap used Grinding Wheels, Scrap used Motors, Scrap Galss, Tube lights & Tubes, Scrap Brake fluid oil.

Inspection Date : 20<sup>th</sup> October 2021 | SUBMISSION ON 21<sup>st</sup> October 2021

3. No other change or modification has been carried out in the invitation for expressions of interests on any terms or conditions thereof.

COAL SUPPLY

# Supply prioritised temporarily to power sector, says CIL

PRESS TRUST OF INDIA  
New Delhi, October 19

STATE-OWNED CIL on Tuesday said the supply of coal was prioritised temporarily to power producers to replenish their dwindling stock of the dry fuel.

The statement assumes significance in the wake of the country's power plants grappling with fuel shortages.

"In view of the low stock position at the power house end due to a spurt in economic activities during post-second wave of Covid-19, the supply of coal was prioritised temporarily to the power sector to replenish their dwindling coal stock," Coal

India (CIL) said in a statement.

To achieve the same in the quickest possible time, coal companies were advised only to go slow temporarily on conducting further e-auction of coal, barring the special forward e-auction for power.

"This was a highly transitory measure to tide off the current

high demand scenario in the power sector and normalcy will be restored soon," the filing said.

Coal Minister Pralhad Joshi on Tuesday discussed ways to improve coal stocks at thermal power plants with Railway Minister Ashwini Vaishnaw and Power Minister RK Singh.

The coal minister also reviewed the performance of Coal India arm Northern Coalfields (NCL), and directed it to ramp up production and load to at least 34 rakes of the dry fuel daily.

Last week, Joshi said the government was making full efforts to meet the coal demand of power producers and

stressed that steps are being taken to soon ramp up the dry fuel supply to two million tonnes per day.

The minister also felicitated machine operators at the Nigahi opencast coal project of NCL and said that their role is integral to scale up coal production and despatch from the block.

"Flagged off a coal dumper truck at Nigahi OCP, @NCL\_SINGRAULI. This indigenous dumper has been manufactured by BEML and furthers #MakeInIndia initiative," he said.

Coal India accounts for over 80% of the domestic coal output.

# Covid: India still lags nations in fully vaccinating population

GEETA NAIR  
Pune, October 19

THE COUNTRY CROSSED the 99-crore vaccination mark on Tuesday and will be reaching the one-billion milestone soon. Despite this milestone, fully vaccinating the country is some distance away. India is still way below the world average when it comes to the percentage of the population fully vaccinated.

According to the Johns Hopkins University & Medicine Coronavirus Resource Centre, the United Arab Emirates tops the list with 87.26% of its population vaccinated fully, followed by Portugal, Malta, Singapore, Spain and Qatar at around 80% of its population fully vaccinated. Around 18 countries have vaccinated 70% of their population and 80 countries are performing above average. Among the Asian countries, China has covered 74.97%, Malaysia is at 71.26% and Cambodia is at 75%.

There are 70 countries with vaccination coverage hovering at 36% of its population.

With only 30% of its population fully vaccinated with both doses, India is at below-average levels. Three-fourths of the population has got its first dose to date. As of Monday, the country administered 99.04 crore doses with 70.16 crore first dose and 28.87 crore second doses to date.

India started its Covid-19 vaccination programme on January 16, 2021, for health care workers and from February 1, it covered all frontline workers. Vaccination was opened to all citizens above 60 years on

March 1 and to all above 18 years from May 1, 2021.

On June 21, the new vaccination drive was launched with the central government supplying vaccines free of cost. From 11.97 crore vaccines administered in June, the government doubled it to 23.6 crore doses in September, with the average daily vaccination rate reaching 78.69 lakh during September.

The country's health authorities have expressed confidence in meeting their target of vaccinating all above 18 by December 2021, as the supply of vaccines is no longer a concern. The country would need 41.29 crore doses to vaccinate all those who have got their first dose and they will be due for their second dose. Another 23.83 crore doses would be needed for administering at least the first dose to the unvaccinated adults. If children are included, the country would need another 25 crore doses for its 12 crore children.

The bigger the number than 1, the faster the rate of spreading of the disease in the population. According to figures calculated by researchers of the Chennai-based Institute of Mathematical Sciences, the R-value of top 10 states with most number of active cases was below 1 till October 18.

However, some of the cities continue to show a rising number of active cases. Kolkata has an R-value over 1, perhaps "unsurprising" given the mass gatherings during the (recently-concluded) Durga Puja, said Sitabhra Sinha, who is leading the vaccination drive.

# India's R-value remains below 1 since Sept, say researchers

PRESS TRUST OF INDIA  
Mumbai, October 19

INDIA'S R-VALUE, which reflects how rapidly the coronavirus pandemic is spreading, has remained below 1 since September, suggesting that the infection rate is declining, according to a study.

The Reproduction number or R refers to how many people an infected person infects on an average. In other words, it tells how 'efficiently' a virus is spreading.

An R-value smaller than 1 means the disease is spreading slowly. Conversely, if R is greater than 1, the number of infected people is increasing in each round - technically, this is what is called the epidemic phase.

The bigger the number than 1, the faster the rate of spreading of the disease in the population. According to figures calculated by researchers of the Chennai-based Institute of Mathematical Sciences, the R-value of top 10 states with most number of active cases was below 1 till October 18.

However, some of the cities continue to show a rising number of active cases. Kolkata has an R-value over 1, perhaps "unsurprising" given the mass gatherings during the (recently-concluded) Durga Puja, said Sitabhra Sinha, who is leading the vaccination drive.

# States, UTs asked to focus on 2nd Covid vaccine dose coverage

PRESS TRUST OF INDIA  
New Delhi, October 19

HIGHLIGHTING THAT THE nation is close to administering a billion Covid vaccine doses, the Centre has urged states and Union Territories to focus on increasing the coverage of the second dose in light of adequate availability of shots.

The cumulative vaccine doses administered in the country so far under the nationwide Covid-19 inoculation drive has exceeded 99 crore. The countrywide Covid-19 vaccination programme was launched on January 16 by Prime Minister Narendra Modi.

The Union government has also sought from the states suggestions in formulating new guidelines for international travel. Union Health Secretary Rajesh Bhushan reviewed the progress of vaccination with Health Secretaries and mission directors of national health missions in states and UTs, through a video conference on Monday, according to a ministry statement.

Bhushan highlighted that the nation is close to administering a billion doses and congratulated the states and UTs for their effort to vaccinate all citizens. It was highlighted that a sizeable number of beneficiaries have not received their second dose of the Covid vaccine.

The states and UTs were urged to focus on the second vaccination dose, the statement said.

At the virtual conference, it was pointed out that many states have adequate doses to vaccinate those people who are awaiting their second jab. The

Government of India is in a position to provide additional vaccine doses to the states and UTs so that they can complete the task, it said.

They were also exhorted to accelerate the vaccination drive.

**IN THE COURT OF THE PRINCIPAL FAMILY JUDGE OF COIMBATORE, H.M.O.P. No. 909 OF 2020**  
V. Bhuvaneshwari ... Petitioner  
- vs -  
M. Jayakumar, S/o. Murugan Ward No. 3, Kappilaseri Irumulikkara, Udhayanapuram, Vaikam, Kerala ... Respondent

# Cap power prices at energy exchanges: AIPEF

PRESS TRUST OF INDIA  
New Delhi, October 19

ALL INDIA POWER Engineers Federation (AIPEF) on Tuesday demanded an immediate meeting of Forum of Regulators to cap power prices at energy exchanges, alleging black marketing by private operators during the ongoing coal shortage crisis.

"AIPEF has demanded that a meeting of the Forum of Regulators be held immediately to stop black marketing in energy exchanges mostly by private operators during the crisis. AIPEF has also demanded that Expert Committee be constituted to fix responsibility for the Coal Crisis and to evolve ways and means to avoid such crises in future," an AIPEF statement said.

AIPEF chairman Shaileendra Dubey has in a letter to Union Power Minister RK Singh urged

The letter said since coal shortage is recognised as a major factor causing a hike in power rates, the power ministry must stress for ending future coal shortages otherwise the results of 2021 would repeat. In particular, we refer to an interview by the then Coal Secretary GOI (Anil Swarup) in 2016, when he said that an action plan would be finalised over the next 5 years for meeting coal shortages.

However, this action plan was not implemented and now the Coal Secretary has retired, and it is up to the Ministry of Power to take up the issue of coal shortages with concerned ministries. AIPEF demanded that one expert committee with a CEA member be constituted immediately to enquire about the coal shortage resulting in the power crisis so that the reason for the present crisis is technically analysed and stern action is taken against those responsible.

in power rates, the Power Ministry must stress for ending future coal shortages otherwise the results of 2021 would repeat. In particular, we refer to an interview by the then Coal Secretary GOI (Anil Swarup) in 2016, when he said that an action plan would be finalised over the next 5 years for meeting coal shortages.

However, this action plan was not implemented and now the Coal Secretary has retired, and it is up to the Ministry of Power to take up the issue of coal shortages with concerned ministries. AIPEF demanded that one expert committee with a CEA member be constituted immediately to enquire about the coal shortage resulting in the power crisis so that the reason for the present crisis is technically analysed and stern action is taken against those responsible.

# Coal, rlys, power ministers discuss supply situation at power plants

COAL MINISTER PRALHAD Joshi on Tuesday discussed ways to improve coal stocks at thermal power plants with railway minister Ashwini Vaishnaw and power minister RK Singh.

The meeting comes against the backdrop of power plants grappling with coal shortages. "Held virtual meeting with Ministers @AshwiniVaishnaw ji & @RajKSinghIndia ji, along with officers of @CoalMinistry, CMDs & officials of coal companies. We discussed improving coal stock at thermal power plants & resolved our commitment to fulfill energy demands of the country," Joshi said in a tweet.
